Test 1	Loyalty Page Test #1			
	Test Objective: Should not be able to view Loyalty page unless user is logged in	Developer: Date tested: 2022/9/25	Peer tester: Date tested: <yyyy/mm/dd>	
Step	Action	Expected results:	Developer pass/fail	Tester pass/fail
1	Ensure user is on Loyalty page on the Navigation Bar. Click on the	User should land on the Loyalty page of the website	Yes	<yes/no>

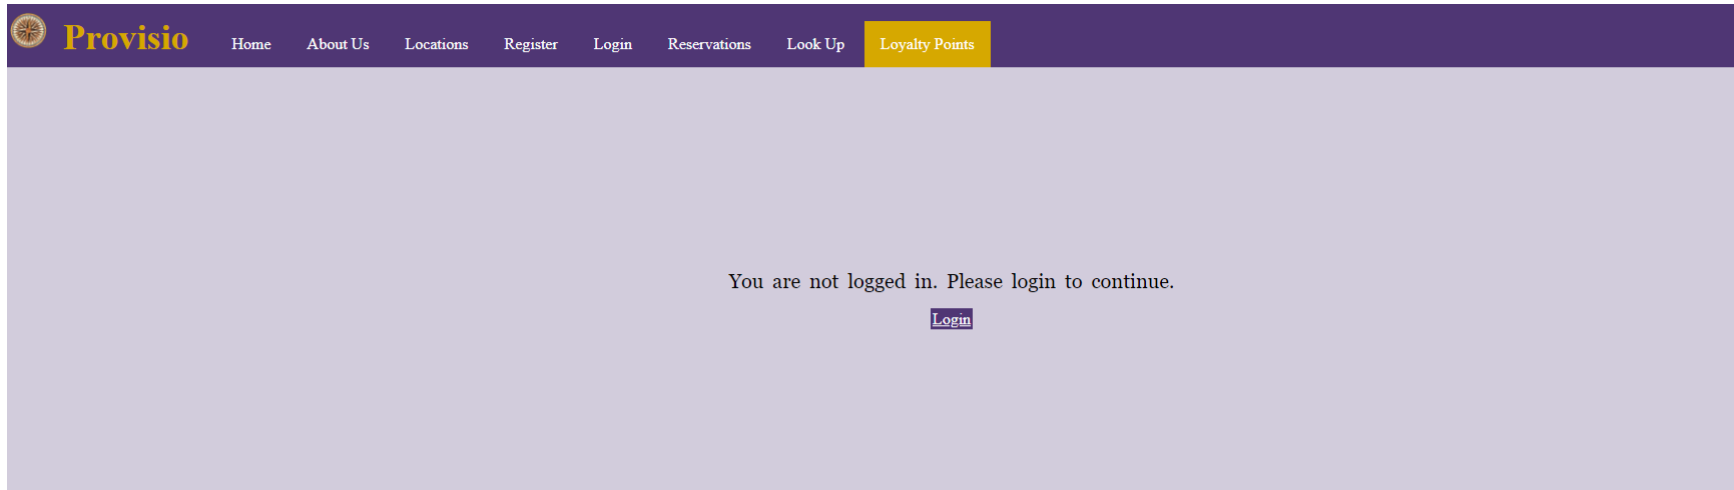

Test Case Template

	Loyalty page if not currently on the page.			
2	User should be prompt to be logged into the Loyalty page	No information will be displayed because the user is not logged in.	Yes	<yes/no>
3	Click on Login	User should be redirected to login page	Yes	<yes/no>
Comments	Developer Test: If the user does not log into the site, they should not be able to view their current attractions nor their loyalty points. User should be prompt to log into the site because every user will have different attractions according to what they reserved.			

Test Case Template

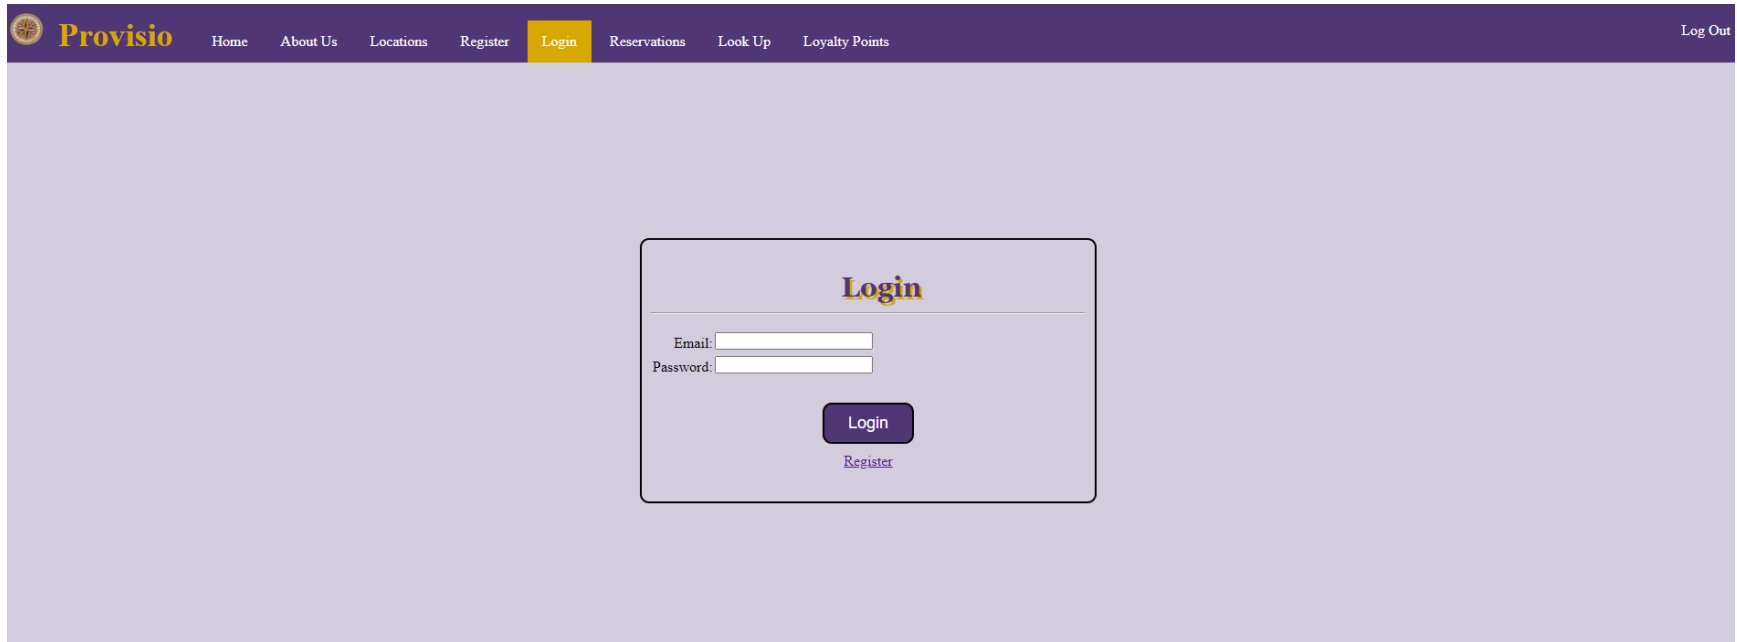

Developer Test:

Landing on the Loyalty page without logging in should result in the user seeing a notification that they need to be logged in.

Test Case Template

Clicking on the **Login** should redirect the user to the login page.

The screenshot displays the Provisio website's login page. The header is a dark purple bar containing the Provisio logo on the left and navigation links (Home, About Us, Locations, Register, Login, Reservations, Look Up, Loyalty Points) in the center. The 'Login' link is highlighted in yellow. On the far right of the header is a 'Log Out' link. The main content area has a light purple background. In the center, there is a white rectangular box with a thin black border. Inside this box, the word 'Login' is written in a bold, yellow, serif font. Below this, there are two input fields: 'Email:' followed by a white text box, and 'Password:' followed by a white text box. Below the password field is a dark purple button with the word 'Login' in white. At the bottom of the box, the word 'Register' is written in a small, purple, serif font.

Test 2	Loyalty Page Test #2			
	Test Objective: View users total number of loyalty points	Developer: Date tested: 2022/9/25	Peer tester: Date tested: <yyyy/mm/dd>	
Step	Action	Expected results:	Developer pass/fail	Tester pass/fail
1	Click on the Login page on the navigation bar	User should be on the Login page	Yes	<yes/no>
2	Enter user email 'JamieS87@example.com'	Input email should be in textbox	Yes	<yes/no>
3	Enter user password 'Jamie1'	Input password should be in textbox	Yes	<yes/no>
4	Click on the Login button	User should be notified that login was successful	Yes	<yes/no>
	Click on the Loyalty page	User should redirected to the Loyalty page	Yes	
	On the Loyalty page, view the number of points the current user has	User should be able to view total number of loyalty points on the page. <i>(Total points for Jamie should be '0' because Jamie does not have any reservations currently)</i>	No	
Comments	Developer Test: Jamie is a test user with preset email and password during the creation of the database. There are no reservations for the current user which may lead to the "null" on the page because there is no reservation currently set. In any case, there should be something to notify the user that they will need to make reservations to view the attractions available at each location. User should also be able to view their loyalty points no matter if they made reservations or not. This could be something that could be added to the Loyalty pages code.			

Test Case Template

Developer Test:

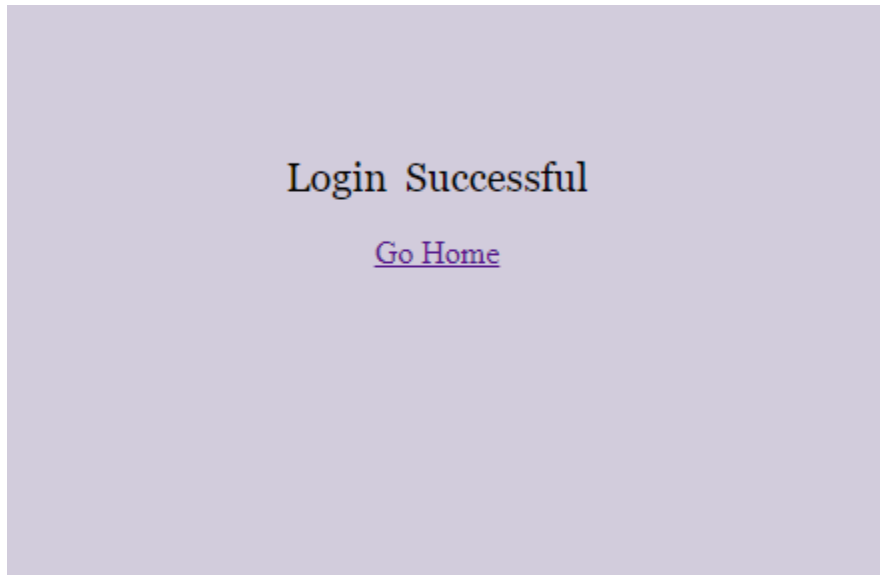

Enter user email and password

The screenshot shows a web login interface. At the top, the word "Login" is displayed in a large, stylized, yellow and blue font. Below this, there is a horizontal line. Under the line, the text "Email:" is followed by a text input field containing the email address "JamieS87@example.com". Below the email field, the text "Password:" is followed by a password input field with six dots. Below the password field, there is a purple button with the text "Login" in white. Below the button, there is a purple link with the text "Register" in white.

Test Case Template

Login successful

View of Loyalty page but there is no points for the user to view
